SUMMARY
Detail-oriented Data Scientist Intern aspirant with solid Python programming skills and understanding of Data Handling , Data Visualization tools and Techniques and cloud fundamentals. Experienced in academic and open-source projects aligned with enterprise software needs.

EDUCATION
Samskruti College of Engineering and Technology, Hyderabad
B.Tech | CGPA: 8.5 / 10 | Nov 2022 – Present

TECHNICAL SKILLS
Languages: Python
Visualization: Matplotlib , Seaborn
CS: SQL, Math, Statistics and Machine Learning
Cloud & Tools: Google Cloud (Basics) GitHub, Tableau, Power BI

SOFT SKILLS

Problem Solving • Team Collaboration • Communication • Adaptability • Learning Agility

EXPERIENCE
GirlScript Summer of Code (GSSoC) — Contributor
• Contributed to open-source projects with global teams using Git/GitHub
• Improved code quality through reviews, testing, and documentation

Google Cloud Virtual Internship — Intern
• Deployed cloud-based applications and automated basic workflows
• Gained hands-on exposure to infrastructure, security, and scalability concepts

PROJECTS
StudyMate
• Developed a document-based chatbot to improve student learning workflows
• Successfully handled 100+ document queries during testing phases

Youth Mental Wellness Platform
• Built a web platform providing emotional support using ML-based analysis
• Improved response relevance by refining emotion classification logic

Blockchain-Based Face Detection & Recognition System
• Designed a secure face recognition system following complete SDLC
• Enhanced data traceability and auditability for identity records

CERTIFICATIONS & ACHIEVEMENTS
• NLP — Infosys Springboard | Cloud Computing — IBM SkillBuild
• Online Python Training Course — Infosys Springboard
• Gen AI Exchange Hackathon (National Level) | Cognitive X Hackathon (Top 10)
